

— defenders D — public P — disruptors A - - - deterministic A (panel a)

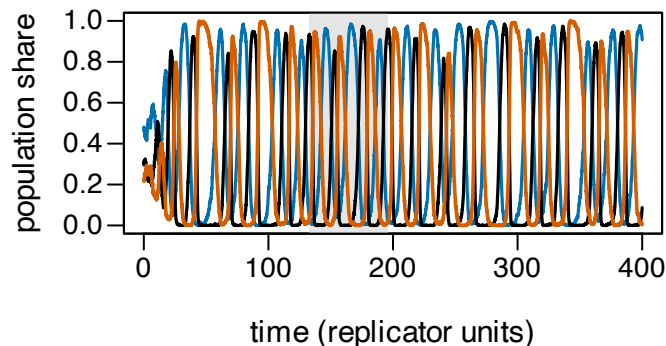

(a) Without reintroduction

$N = 1000$, $\mu = 0$

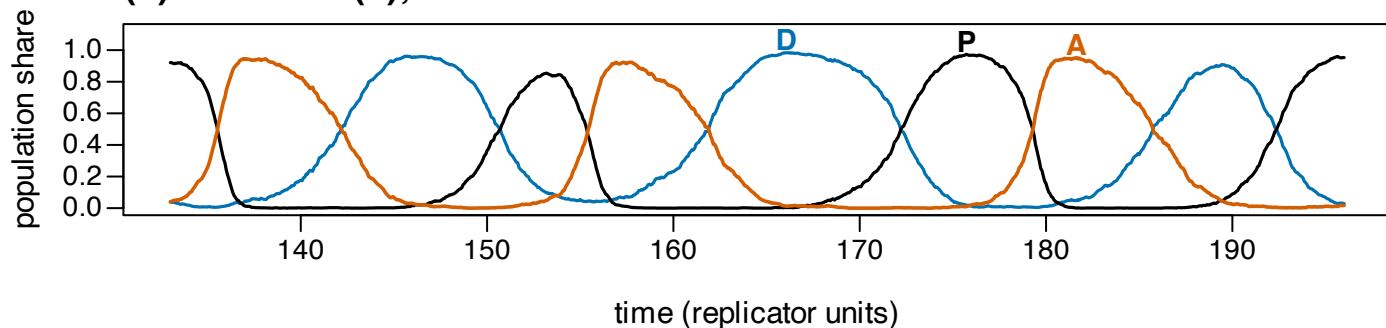

(b) With reintroduction

$N = 1000$, $\mu = 10^{-3}$

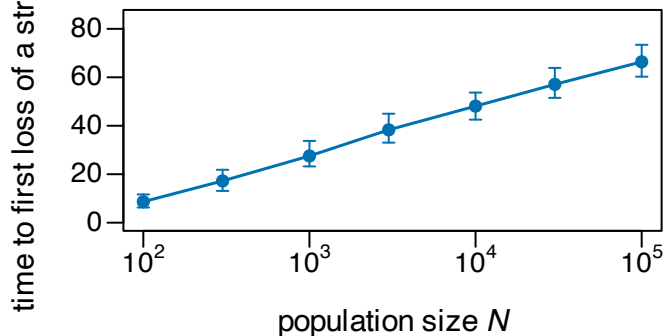

(c) Detail of (b), the shaded interval

(d) Time to first strategy loss

$\mu = 0$, median and interquartile range

(e) Time per resurgence

$\mu > 0$, pooled over runs
